

NERC Certification: Exam Preparation Program

Online/Instructor-Led Training

Our NERC Certification: Exam Preparation Program assesses your individual strengths and weaknesses, then guides you through a program devised with your end goal in mind – becoming a System Operator. We offer online and instructor-led training designed to help you pass the NERC certification exam. Our program will not only get you certified, but help you maintain the reliability and safety of the grid.

There are four exams for certification:

1. Reliability Operator
2. Balance and Interchange Operator
3. Transmission Operator
4. Balancing, Interchange, and Transmission Operator

Our program utilizes a systematic approach to training and takes into account different learning styles.

Our program follows these steps:

1. **NERC Pre-Assessment Evaluation** – assesses your basic knowledge of the Bulk Electric System and the NERC Certification Content Outline. Depending on the outcome of the assessment, taking **PowerStarters** may be recommended before starting the program.
 - **PowerStarters Online** – introduces the new operator or marketer to the power grid, and its components and operations.
2. **NERC Certification: Exam Preparation Online** – a web-based program following the NERC testing standards.
3. **End of Program Exam (OHM Exam)** – gives you three practice exam options for each version of the NERC exam containing unique questions covering relevant content areas. Each test has a specific concentration depending on which examination you are taking.
4. **NERC Certification: Exam Preparation Instructor-Led** – a three day, fast-paced comprehensive final review preparing students with test-taking tips, study hints and a variety of resources giving an added edge in taking the NERC Exam. This class also focuses on the NERC Certification Content Outline for the exams. Our NERC Instructors have extensive backgrounds in adult learning theory and the power industry, and hold System Operator Certifications. The instructor-led course is designed to be taken in conjunction with the online training. It should not be relied on to prepare students to take the exam on its own.

* *Instructor Mentoring is available for one-on-one guidance as needed. Our NERC Trainers can analyze a student's exam preparation history and recommend a path for success based on an individual's knowledge and experience. Students can take advantage of regularly scheduled office hours to ask questions and clarify topics as needed. See our web site for details.*

After the student has attained their certification, these credentials are maintained through the use of SOS University and our continuing education program. No matter what stage you are in with your certification, SOS provides everything from Initial Operator Training courses, continuing education hours, simulation courses, and advanced courses for the seasoned System Operator.

continued...

Online*

*After NERC exam scores have been added to our University (under the My Info section), NERC Certification: Exam Preparation online will be converted to NERC Standards for System Operators for the balance of a 1-year access life allowing the student to earn CEH & EO credits towards recertification.

Instructor-Led

CREDIT HOURS:

24:CEH[†] 23:STD 12:EO[‡]

[†] CEHs offered for students already NERC certified prior to attending class

[‡] For PER compliance, EO training must be applicable to each individual organization. SOS hours are recommendations only. Please check with your compliance group for eligibility.

NERC
NORTH AMERICAN ELECTRIC
RELIABILITY CORPORATION

SOS Intl. and NERC ID SOS_INTL_001 is recognized by the North American Electric Reliability Corporation as a continuing education provider who adheres to NERC Continuing Education Program Criteria.

SOS Intl helps you prepare for the NERC exam with the following:

- Professional Trainers and Certified System Operators to assess, develop, and teach the NERC Certification Exam Preparation material
- Student services and NERC-certified staff to help with training decisions and individual student plans
- Individual mentoring for students as needed

The online program is based on the current NERC Certification Exam Content Outline, providing a good foundation of prerequisite knowledge for exam candidates.

Online:

Our online courses include 9 courses with more than 35 modules. The program provides:

- Excellent customer service for reports, tracking progress, and additional individual student help if required
- Student progress tracking through the SOS Learning Management System (LMS)
- Interactive modules with professional audio and exercises
- Systematic approach to training (the ADDIE process)
- NERC Testing Standards-based content
- 24/7 access to modules
- Recall, application, and analysis questions
- End-of-Program Exam to evaluate knowledge gained within each content area

Instructor-Led:

Our Instructor-Led course is designed to supplement the online courses and is a three-day review consisting of intensive instructor-led exam preparation. Our Instructors will help students prepare for the exam and identify areas for additional study.

NERC CERTIFICATION: EXAM PREPARATION PROGRAM ONLINE COVERS THE FOLLOWING:

- Resource & Demand Balancing
- Transmission
- Communications and Data
- Contingency Analysis and Reliability
- Emergency Preparedness
- Emergency Response

NERC CERTIFICATION: EXAM PREPARATION PROGRAM INSTRUCTOR-LED COVERS THE FOLLOWING:

- Preparing For The Exam and Test Taking Strategies
- Resource & Demand Balancing
- Transmission
- Communications and Data
- Contingency Analysis and Reliability
- Emergency Preparedness
- Emergency Response

CREDIT HOURS: 24 : CEH[†] 23 : STD 12 : EO[†]

[†]CEH's offered for students already NERC certified

* After NERC exam scores have been added to our University (under the My Info section), NERC Certification Exam Preparation online will be converted to NERC Standards for System Operators for the balance of a 1-year access life allowing the student to earn CEH and EO credits towards recertification.

† For PER compliance, EO training must be applicable to each individual organization. SOS hours are recommendations only. Please check with your compliance group for eligibility.
